

Creating Connection

FURNITURE SOLUTIONS FOR THE WHOLE CENTER

watsonconsoles

We don't just make furniture; we build relationships.

Watson is a trusted partner to emergency communications centers nationwide, supplying best-in-class consoles for telecommunicators that are intentionally designed, expertly crafted, and built to last.

We know that your teams spend long hours planning, training, and perfecting your center's operations. That's why we want to share our award-winning office furniture with you – to support your whole center, in the control room and beyond.

We love what we do, and it shows. For over 60 years, we've designed quality furniture to help people connect and do their best work. Find inspiration in our private office settings, collaborative workspaces, and training rooms; you'll discover our function-first designs are adaptable to the needs of your center today and in the future.

Storage & Work Tools

watsonconsoles

Your trusted partner since 1986

Watson is a trusted partner to mission-critical teams, providing expertly engineered products and unparalleled service to support 24/7 control room environments.

Captain's Office

A private office setting designed for top brass, this height-adjustable desk epitomizes sophistication with its concealed lifting columns. The integrated and freestanding storage solutions, including tech-ready credenzas, stacking cabinets, open shelving, and wardrobe options, offer both functionality and style.

Thoughtfully concealed yet easily accessible cable management ensures a clutter-free workspace. The recessed leg design and expansive worksurface provide ample room for standing meetings, making it the perfect choice for collaborative sessions that require all hands on deck.

Director's Office

Perfect for top-tier decision-makers, this ergonomic, height-adjustable desk seamlessly integrates power and offers a range of desk shapes and storage configurations to maximize space. Its flexibility allows for various setups to suit individual needs, whether you prefer a traditional rectangular desk or a corner design. The durable materials and diverse selection of finishes ensure your workspace will stand the test of time.

Manager's Office

For managers who value tradition, this fixed-height desk stands strong with its iconic triangular steel frame. It is sturdy and built to last, with modular storage that meets all your needs without sacrificing quality.

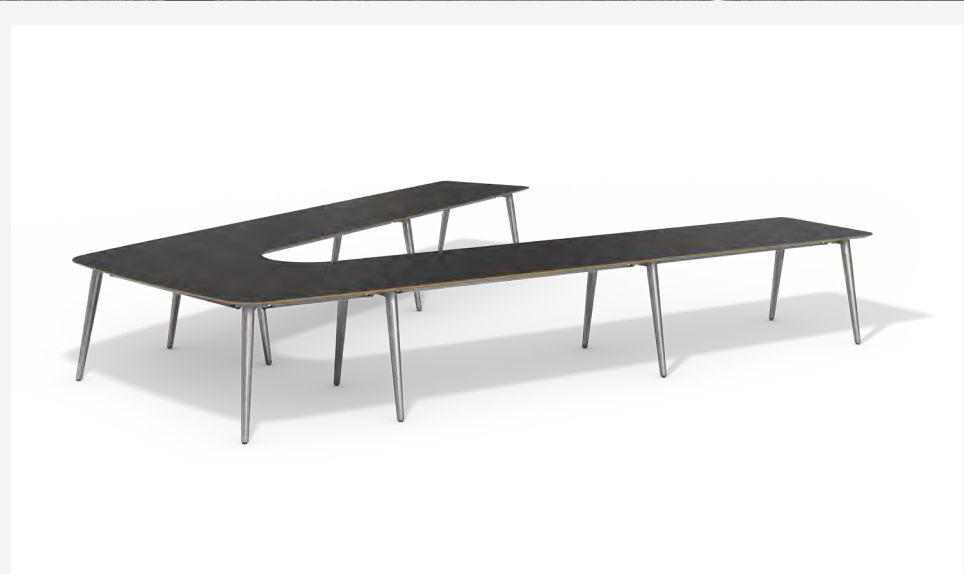

You can make it your own with different finishes, from light and bright to warm wood, adding an acrylic modesty panel for texture. Fabric pinboards keep your notes and reminders close at hand while adding a splash of color. Adding a wall-mounted markerboard creates functional space throughout your office.

Administration Spaces

Teams that work better together can share administration spaces, using scalable height-adjustable desks and storage systems to help keep areas organized and inviting, while fitting the needs of each workstation. Storage systems are offered in overhead and integrated solutions. Achieve a consistent look and feel in your center by matching office furniture to your consoles.

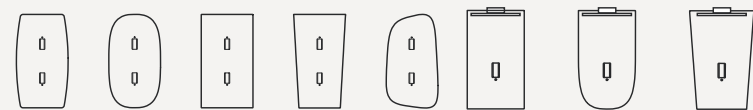

Conference Room

Our conference room furniture is designed to adapt to any setting or capacity, seamlessly fitting any floor plan or seating requirements. Built with durability in mind, our furniture provides your facility with a long-lasting and timeless conference solution.

These fixed-height conference tables feature integrated technology options and uncompromising style.

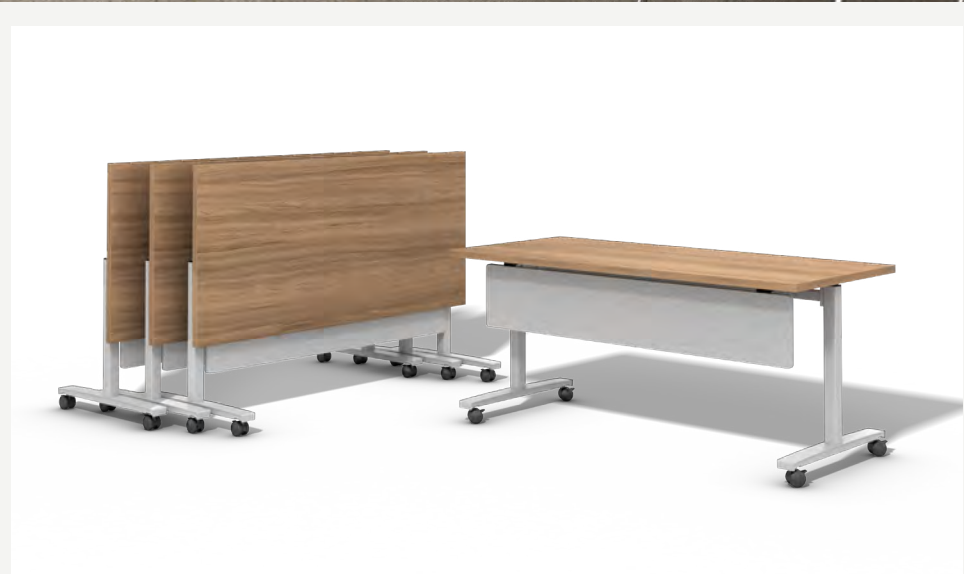

Meeting Room

Height-adjustable and fixed-height conference and meeting tables have easy-to-reach power access, and integrated data delivery. Every seat offers optimal positioning for team breakout meeting spaces or large briefing rooms thanks to a range of top shapes and sizes.

Integrated and freestanding credenzas for tech or ancillary storage are also available.

Briefing Room

When space is hard to come by, multipurpose rooms can serve as briefing rooms on a moment's notice. Our mobile flip tables are equipped with an easy-tilt mechanism making nesting these tables a breeze. Built for high-volume use, and offering add-on ganging brackets to create a lengthier table, this table accommodates centers that are always evolving.

A variety of surface shapes offer the opportunity to create different configurations to support a range of layouts.

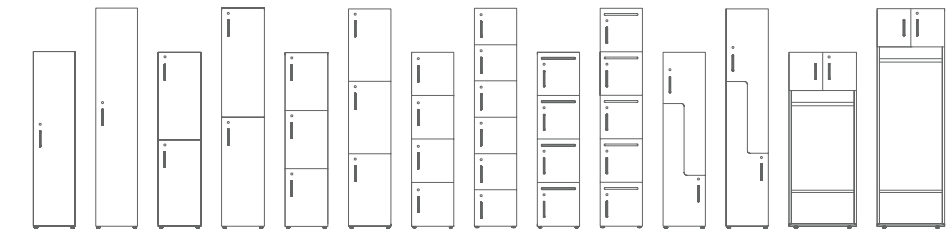

Training Room

Our training tables are equipped with a variety of power options and undersurface cable management to keep cords safely tucked away, simplifying room setup and breakdown. Customize with fabric or acrylic modesty panels to continue design themes throughout your center.

Built for high-volume use, these tables fit multipurpose needs.

Available in five distinct styles, these lockers lend universal function to a busy office. The units can be raised off the floor with an optional riser kit.

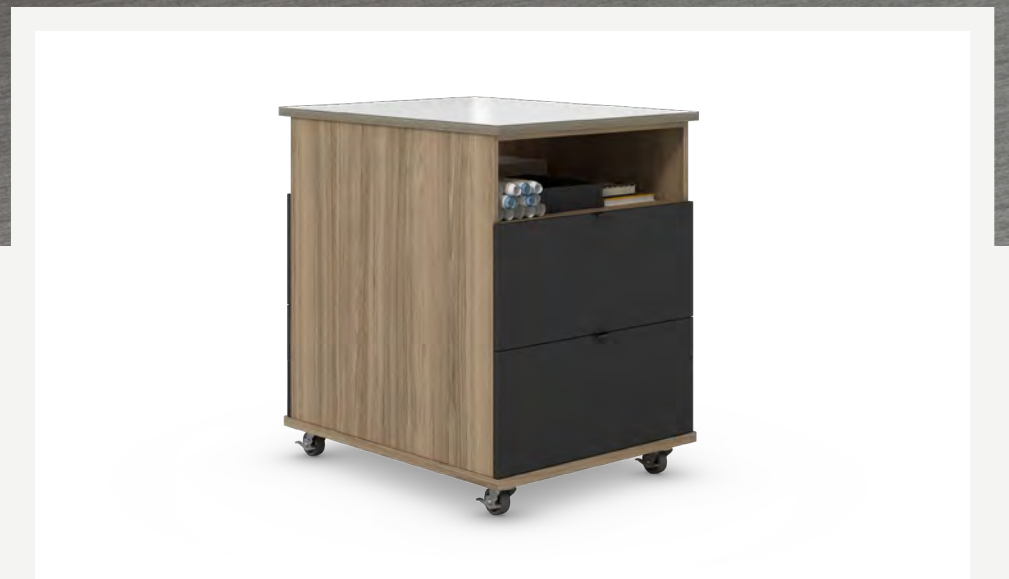

Locker Rooms

Emergency response demands readiness at all times, so it's essential for teams to store personal items securely. Our locker systems come in multiple styles, sizes, and finishes to suit your center's needs. Combine functionality by adding personal mail slots and a variety of locking options from digital to key locks.

Dynamic Work Tools

Equip your center with essential work tools: versatile work islands that double as storage and recycling stations, magnetic markerboards for detailed planning and quick updates, and personal storage units for individual organization. These tools support the dynamic needs of your team, enhancing organization and fostering collaboration.

Made in the USA

Why Watson

Team experienced in meeting public safety expectations

Guaranteed quality across all products
